

CHEMICAL RESISTANCE OF THE FUSION BONDED EPOXY COATING APPLIED ON STEEL REINFORCING BARS

Type of tests performed

- ⊙ Immersion test in distilled water
- ⊙ Immersion test in 3 M CaCl₂
- ⊙ Immersion test in 3 M NaOH
- ⊙ Immersion test in saturated Ca(OH)₂ solution

Report

Conformance to the chemical resistance of the fusion bonded epoxy coating as per IS 13620:1993 (Reaffirmed 2004)
